Slot aperture

wall wash

MONKEY MODULE

Dim to Warm Downlight

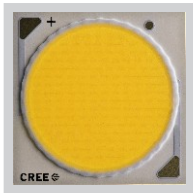

Dim-to-Warm module are suited for hospitality and entertainment venues such as hotels, restaurants, cafeteria and theatres, where there is a desire to mimic the behavior of incandescent lamps. When delivering maximum light output, the color is white, but when lighting is dimmed, the CCT drops to simulate dimmed incandescent or candlelight. Judges observed that the color quality in the submitted product was stellar, even at the lowest end of the dimming range.

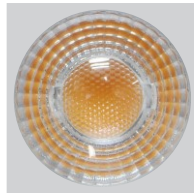

MONKEY MODULE

**Affordable
Price**

Advantages

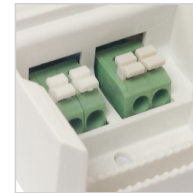

CREE COB
SDCM<3
SHARP TARGER
2000K-3000K
Dim to Warm

CAMETA LENS
High transparency
Even light
Protect human's eye

Rubycon capacitor
ensure good quality

Driver easy installation
Loop in and
loop out design

Integrated design
No thermal resistance,
Good heat dissipation,
Competitive price

Parameter
