# APP SET-UP

# STEP 1

Download the 'Tuya Smart' App

Scan the QR code below to download the 'Tuya Smart' App.

You can also download this app in the App store/Android app market search "Tuya Smart"

android 

APP  
SET-UP

# STEP 2

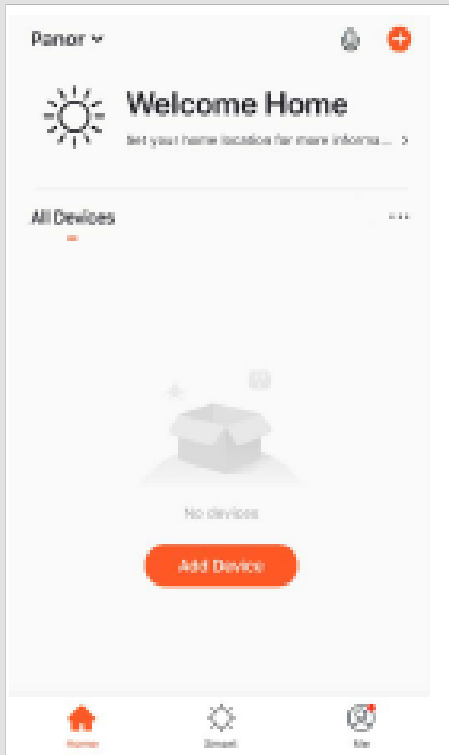

## Register an account and Log in

- . Open the Tuya Smart App, click Register to create an account & log in.
- . If already registered, log in.

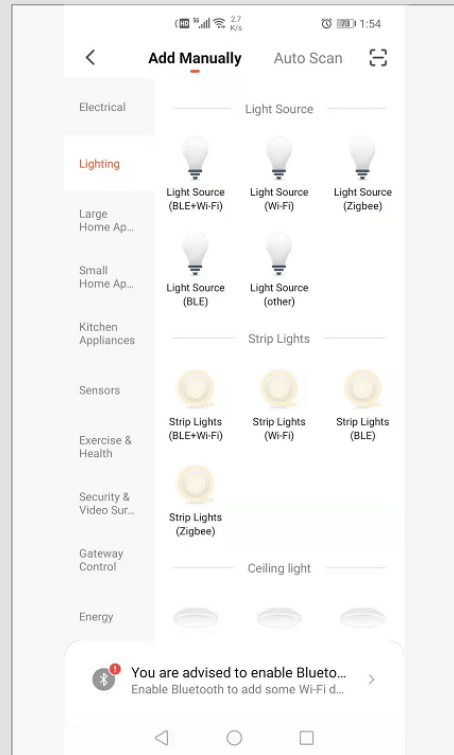

# STEP 3

Selecting the Device

Click 'Add Device' or the '+' in the top right-hand corner;

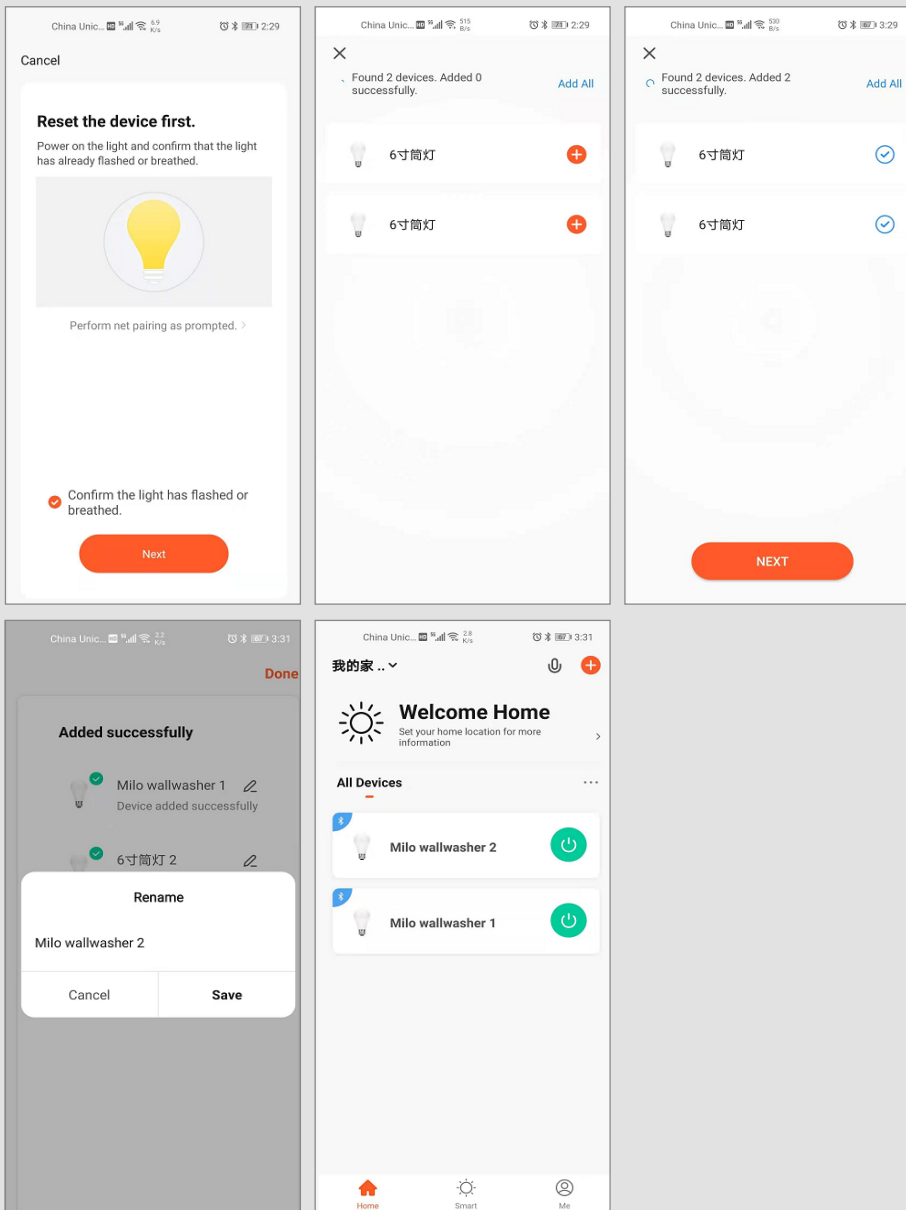

Click 'lighting' then 'lighting source BLE' to enter the device connection interface;

# STEP 4

## Mobile phone connection

Switch on the downlight, if it flashes every second, it means your phone can connect with the light. If not flash, please switch the light on/off 3 times (each interval within 1s), Off, On, Off, On, Off, On. The light will flash quickly (flash every second), it means it is successfully reset and your phone can connect to the light.

- Turn on your phone GPS and Bluetooth
- Confirm the light has flashed or breathed, then click
- Select the light and add it
- Click Next after add light successfully
- You can rename the light as you like, then save it
- Click Done to enter the operation interface

The light will stop flashing when the connection is successful (If there is no connection, exit network configuration mode after 3 min.)
