# XLINE PLUS

An architectural linear lighting system

XLINE PLUS

Aesthetic and Minimalist

Originate from last generation, Xline™ plus is aesthetic and minimalist, easier for installations and newly developed the surface and track mounted besides the pendant. It's flexible and seamless continuous connection to build creative and innovative lighting system.

Distinctively rectangular aluminum luminaire housing from extruded aluminum profile; No visible screws; Indirect output reflected from the ceiling provide a softer and ambient illumination. The vaccum aluminum plating faceted louver with lens design minimized the glare. Suitable for VDUs workplace light according to EN 12464-1 (UGR 19, UGR 22); Available in 1167mm and 2330mm of length, with DALI, 0-10V or ON/OFF dimming control. Various lighting distributions meet the requirement of generation lighting, asymmetric distribution for shelves and wallwasher, bi-symmetric distribution for aisle lighting.

1-10V | DALI | ON/OFF | 110lm/W | FLICKER

SAMSUNG

APPLICATION
Ideal for offices, lobbies, conference rooms, libraries, classrooms, shops, and many other applications
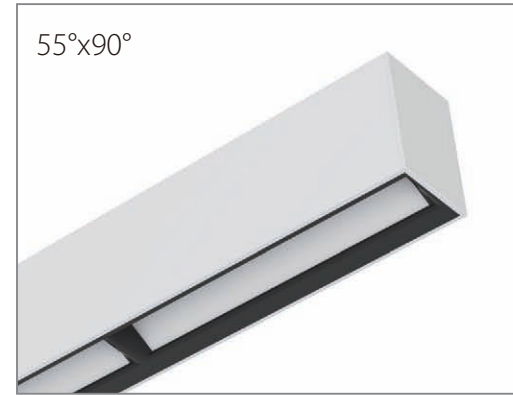

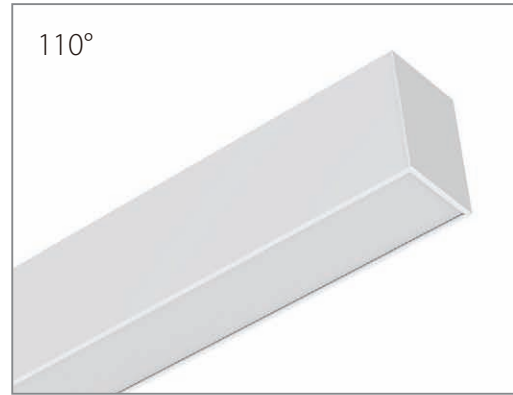

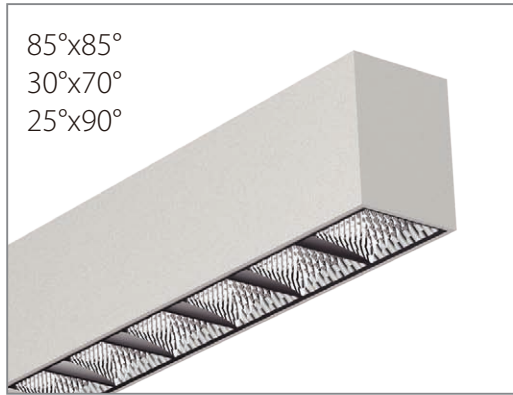

INSTALLATION
Pendant, Surface, Track Mounted

FEATURES

Seamless continuous
Indirect and direct lighting
Low UGR of 19, or 22
Up to 110lm/W system efficacy
Visual comfort

OPTICS DESIGN

85°x85°
30°x70°
25°x90°

55°x90°

DISTRIBUTIONS & INDIRECT LIGHT

Aisle Lighting: 30°x70°
General Lighting: 85°x85°, 110°
Asymmetric Vertical Lighting(by request): 25°x90°, 55°x90°

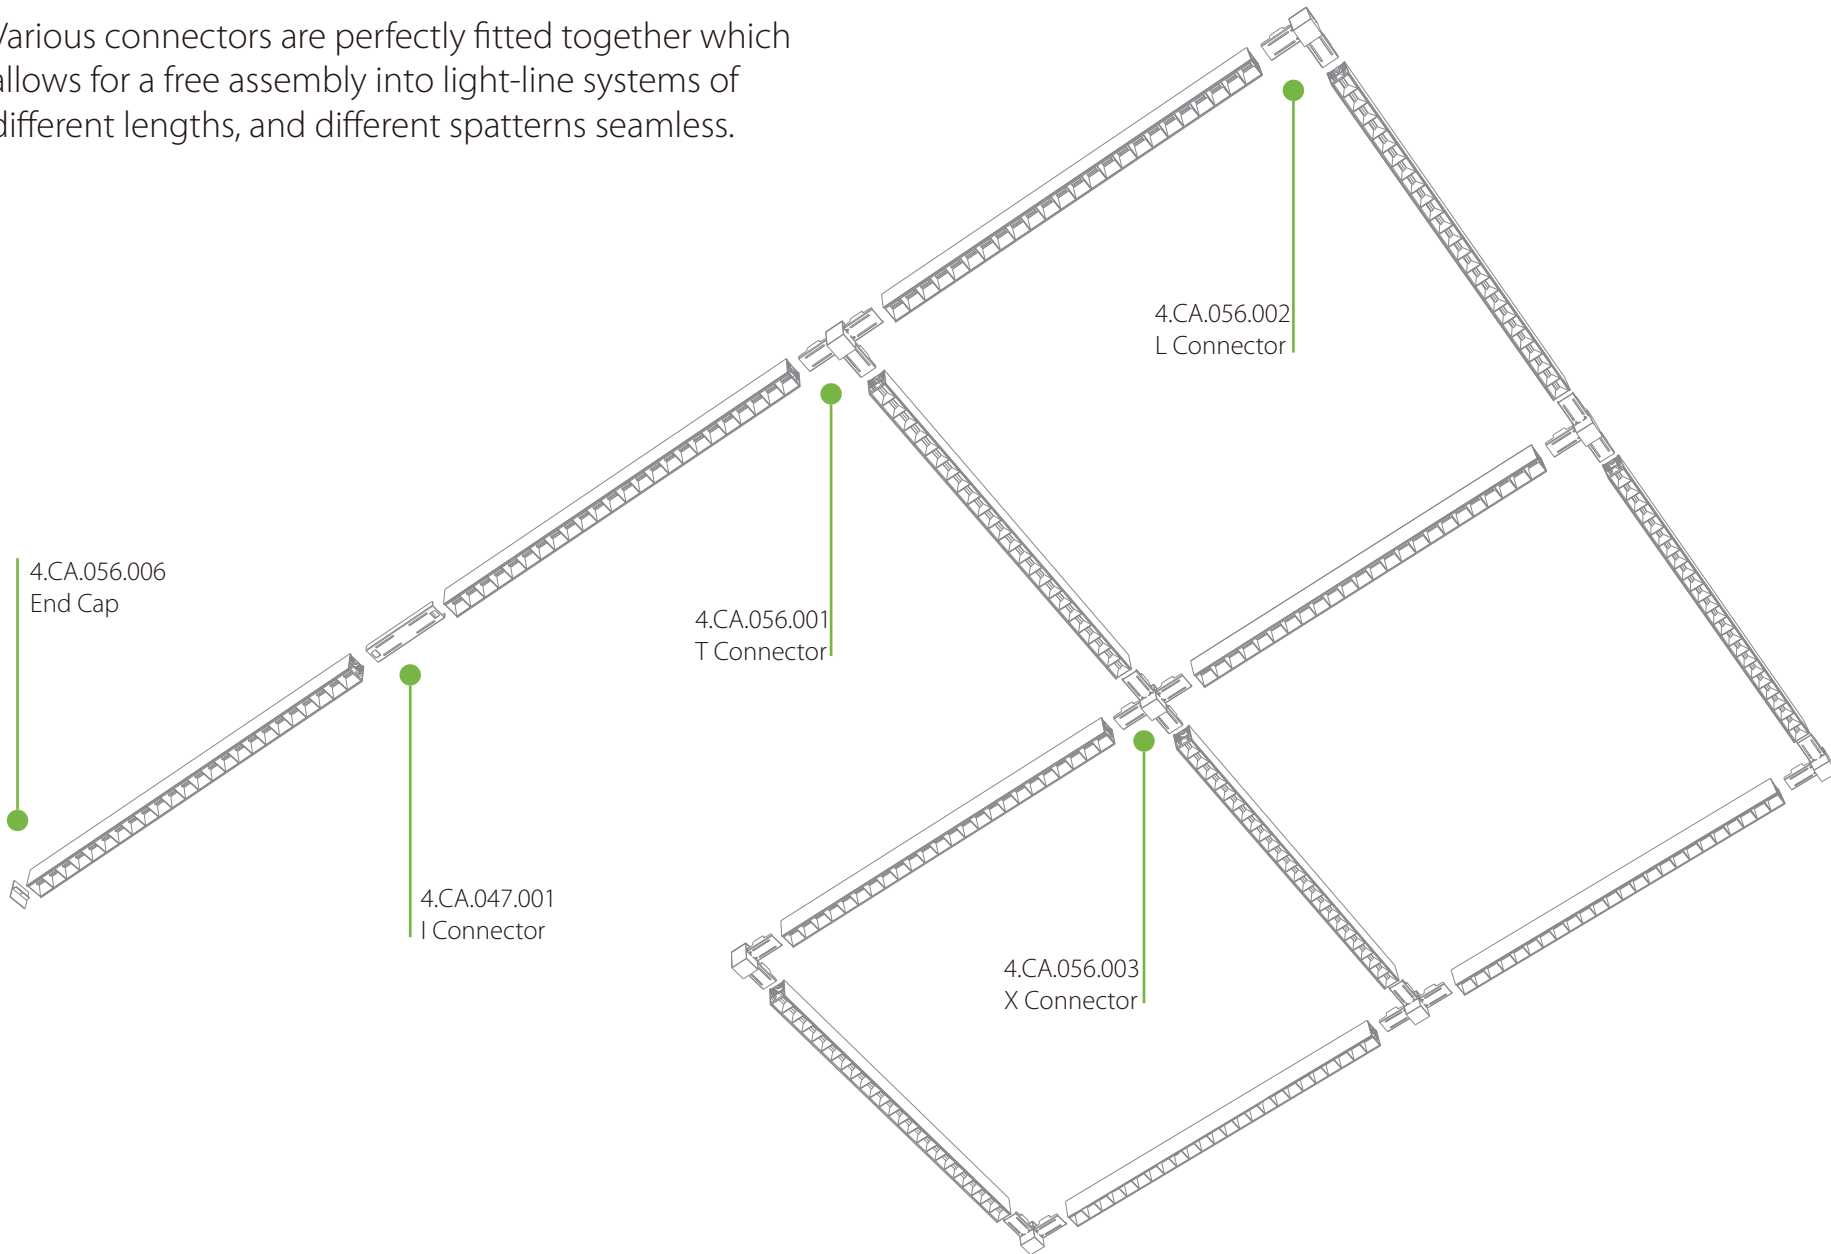

Up and down light percentage option

↑ 0%   10% 30% 50%

↓ 100% 90% 70% 50%
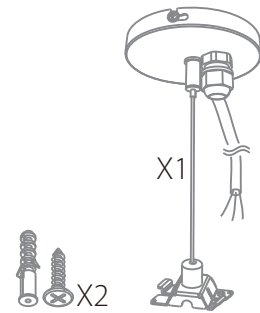

SEAMLESS CONTINUOUS DESIGN

Various connectors are perfectly fitted together which allows for a free assembly into light-line systems of different lengths, and different spatterns seamless.
